Attention Of: Laundry Schedule

To: All Staff Members

This laundry schedule will not change or deviate at any time unless authorized by myself. If some flights have already had laundry done please inform me and changes will be made. If any staff member deviates from the schedule they will lose all privileges for laundry.

Laundry Schedule

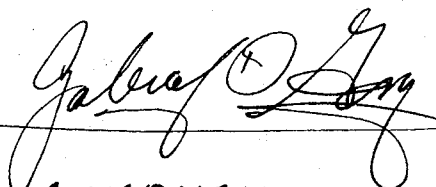

Flight staff will have to find time during the day to do laundry. Everyday there will be some time for you to do the flight laundry. Example, during the flight time, drill, or cleaning of the barracks.

Executive staff will have to find time when the flights are not doing their laundry.

I do not know for a fact when flights will have their laundry done, but you are better off doing laundry at night right after lights out or during the day as long as the flights are not using it.

When you do your laundry please do not leave the laundry lying about because then others will not have a chance to use the machines even when the clothing is done. Please when doing laundry put a sign up to indicate which flight or staff members are doing laundry. Try to load the machine up. Don't have a half empty load.

1. Echo flight
2. Foxtrot flight
3. Alpha flight
4. Bravo flight
5. Delta flight
6. Charlie flight
